

Amendments to the Claims:

This listing of claims will replace all prior versions, and listings, of claims in the application:

Listing of Claims:

1. (Currently amended) A shaped detergent composition comprising:
 - (a) a first phase comprising a surfactant; and
 - (b) a second phase comprising at least one particle comprising benefit agent wherein the particle floats in deionised water at 20°C;wherein ~~said~~ the first phase and the second phase of the shaped detergent composition is are compressed at a force of not more than 750 N/cm².
2. (Previously presented) A detergent composition according to Claim 1 wherein the composition comprises a plurality of particles comprising the benefit agent.
3. (Original) A detergent composition according to Claim 1 or 2 wherein the particles comprising the benefit agent have an average particle size of from 0.5mm to 10mm.
4. (Original) A detergent composition according to Claim 1 wherein the benefit agent is selected from the group consisting of cationic softening agents, soil-release agents, perfumes, suds-suppressing system, anti-wrinkle agents, chelating agents, chloride scavengers, dye fixing agents, fabric abrasion reducing polymers, and mixtures thereof.
5. (Original) A detergent composition according to Claim 1 wherein the benefit agent is selected from the group consisting of cationic softening agents, perfumes, pro-perfumes and mixtures thereof.
6. (Currently amended) A detergent composition according to Claim 1, wherein ~~comprising at least two phases, the first phase, comprising surfactant, in the form of a shaped body with~~ comprises at least one mold therein and the second phase, ~~comprising benefit agent, is configured to be compressed~~ within the mold.
7. (Original) A detergent composition according to Claim 1 comprising from 0.5% to 75% by weight of surfactant.
8. (Original) A detergent composition according to Claim 1 wherein the surfactant is

selected from the group consisting of anionic sulphonate surfactants, anionic sulphate surfactants, secondary alkyl sulphate surfactants, nonionic surfactants and mixtures thereof.

9. (Original) A method of washing in a washing machine comprising charging a washing machine with a shaped detergent composition according to Claim 1 and washing in a conventional manner.

10. (Original) A process for producing a detergent composition according to Claim 1, said process comprising a mixing step and a compression step.

11. (New) The composition of Claim 1, wherein the benefit agent comprises less than 50% by weight of the composition.

12. (New) The composition of Claim 1, wherein the second phase of the composition comprises from 4.9% by weight of the composition to 8.4% by weight of the composition.
